

June 26, 2008

U.S. House of Representatives  
Washington, D.C. 20515

Dear Representative:

The leading self-employed and small business organizations urge your support of the Home Office Deduction Simplification Act of 2008 (H.R. 6214). This important legislation will greatly assist in simplifying tax preparation for our nation's home-based entrepreneurs and facilitate their use of the home office deduction, a critical tax benefit.

Home-based businesses are a vital segment of our nation's economy. According to research commissioned by the SBA Office of Advocacy, home-based businesses represent 52 percent of all firms in our economy. The concerns that entrepreneurs have voiced about the home office deduction are familiar and valid: the forms and instructions are too complicated, the paperwork requires too much recordkeeping and the time required to complete the forms is excessive. In addition, there is a substantial fear that claiming the deduction will trigger an IRS audit. All of these obstacles cause many home-based business owners, who qualify, to avoid the deduction altogether.

The creation of a \$1,500 standard home office deduction option as proposed in the Home Office Deduction Simplification Act of 2008 would help address all of these barriers to utilizing the home office deduction. We believe that home-based entrepreneurs have been the foundation of innovation in our nation and have spawned many of our country's greatest enterprises. Legislation, such as the Home Office Deduction Simplification Act of 2008 (H.R. 6214), which supports and helps these micro-businesses to do what they do best -- create jobs and economic growth -- should be the utmost priority of our nations' legislators.

**We ask you to support the Home Office Deduction Simplification Act of 2008 (H.R. 6214) and sign on to cosponsor this vital legislation for home-based entrepreneurs.** If you have any questions or comments or to sign on as a cosponsor of this bill, please contact Mike Holland via phone at 202-225-4611 or e-mail at [Mike.Holland@mail.house.gov](mailto:Mike.Holland@mail.house.gov).

Thank you for all your work on these important issues facing the self-employed and small business community.

Sincerely,
